WORK EXPERIENCE

Website operation   Nov. 2015-Present
The Laboratory of Digital Media in Chongqing University
of Posts and Telecommunications, Chongqing
I have been learning all my website's skills there, and I put them into practice.

PROGRAM & RESEARCH

Project leader   July 2016-Sept. 2016
PostAlong APP, Chongqing
This project is an international APP, which is based on H5 technology. We devoted
ourselves to realize the function of sending goods, receiving goods, delivering goods,
going shopping in the world without leaving house and so on. The download link is
http://www.postalong.com/pages/home.html

I'm mainly responsible for developing the module of going shopping. The technology I
used is MUI, Jquery, AJAX and artTemplate.
